

Counselor Letters of Recommendations

Not all colleges require a counselor letter of recommendation.

If the college(s) you're applying to do require a counselor letter of recommendation:

- SchoolLinks will automatically notify your school counselor when you add that college to your College Application Manager. You **do not** need to request a counselor letter separately through SchoolLinks.
- Your school counselor must receive a completed [Postsecondary Options Packet](#) before she can write a letter of recommendation.
 - By this point, you should have emailed your completed Postsecondary Options Packet to your school counselor as part of your English summer reading assignment. Your English teacher will give you credit for completing this assignment.
 - If you have not already submitted your packet, you must email it to your school counselor by **Tuesday, September 1, 2026**. This deadline allows your counselor enough time to prepare the required recommendation and school report before application deadlines.
