- [TCSG and USG Transfer Chart](#)

USG Dual Enrollment Funding

- Students must use their available funding before they may self-pay for a course if the course is eligible for Dual Enrollment funding.
- Students may self-pay before their funding is exhausted if the course is ineligible for funding. Examples:
  - Student is participating in the 9<sup>th</sup> grade;
  - Student is participating in 10<sup>th</sup> grade but doesn't have scores required for funding;
  - Student is taking a course not on the Dual Enrollment Course Directory.
- When enrolling in funded and unfunded hours in the same term, students:
  - Are eligible to have their mandatory fees waived;
  - Are provided required books for a course if any of the hours for that course are DE funded; and,
  - Are responsible for their tuition for any unfunded hours.
- Once funding is completely exhausted and none of their hours for a term are funded, students are responsible for all of their tuition, fees, and textbooks.
